

**Sensational Disclosures as Result of Factional Roto Among Republicans of San Francisco — The "Reformers," Who Wear White Robes and Guns, Engaged in Trickery of the Most Shameless Sort.**

to his meeting this morning with the members of the Sprackles family prior to his "appeal" to Fiddwell and his four committeemen, intimating, under black and white and in type that unless they agreed to his "appeal" to the Sprackles family would be opened on them. This, however, had no effect. Kelly went back a few days before the meeting of the Sprackles family. The Sprackles is also East; and these absences, of the four Sullivanites above named, the "Regulars" a vast majority. They are the members of the Dam and the Worthington. Sprackles then sent his crowd before Superior Judge Musinsky with an application for an injunction to restrain the Sprackles and the entire matter will come up in court next Friday.

How it will result is not a matter of concern to the public. It is a matter of politics there is no excitement, and not likely to be any over it. But the scandal that will explode when the details of the matter reach the public and Detective Burns have attempted to get Sullivan's five men become known, is another matter. These details will be the subject of discussion before the public in a new and interesting light, and probably dissipate all hopes that any decent man here now could be a member of the Sprackles and Eugene Schmitz. They will, indeed, confirm every charge that has been made concerning the motives of the Sprackles family in their reformers who are allied with him.

**MONEY ENOUGH.**

In addition to these, the "Regulars" have, or will have, an affidavit of John Barr, candidate for the Assembly in the Thirtieth District, who is a resident of the Thirtieth District, and who is at the former's office. He says Sprackels talked with him about the national committee, and that he was not only for the Lincoln-Roosevelt League candidate, who, Barr avers, is Charles Wheeler, Sprackels' private secretary, but that he was also for the reformer who is running for the Assembly in the Thirtieth District to carry "Never mind the cost," and "Never mind the expense" in with us, all that will be attended to. We know how to make those "rights" of the "reformers" come out. And that if "we" don't know how to make them nobody does.

Committeeman Strahl was also approached by John Barr, who in a similar manner. Strahl says they called on him in a city automobile. If this is true, it is a very serious matter, not only working the District Attorney's detective force in his political schemes, but also in the fact that he is not only using the municipal gasometer, but also the city's money.

This, then, is an outline of the story that will be told when the scandal is made public. It is a very serious one, along that Sprackels intended to use Burns and his gum-shoe men and the District Attorney's office in local politics, and that he was not only informed when they made an appropriation of \$70,000 for London that he was to be the "reform" candidate, but that he dreamed that the great reformer would thus open. Evidently he has determined to throw caution to the dogs, and to go ahead with his scheme.

It is not only the County Committee contest by any means, but the evidence referred to above. He is not only using the city's money for prosecuting the grafters; but he is also using the city's money to lecture before Lincoln-Roosevelt clubs in various parts of the city, and to employ a man half his time in that business.

NEWS OF THE PACIFIC SLOPE

GIANT PLANT IN OPERATION.

Big New Sugar Factory at Corcoran Starts Up.

A Commercial Monument of Past Importance.

Most Up-to-Date Industrial Factory in World.

CORCORAN, July 20.—The big million-dollar factory of the Pacific Sugar Company began operations today. A number of visitors from Los Angeles and other points were present, as well as the townspeople, and cheered heartily as the wheels began to revolve and the beet rollers down the chutes to be lost in a bewildering mass of machinery and finally emerge as sugar.

The event marked an important epoch for Corcoran, for this great sugar plant is really the foundation of this town and will play the chief part in its development. This was abundantly realized by the citizens, who, within a short time after the first beet had entered the chutes, witnessed the sugar come out, automatically sacked, and saw it weighed and carried away ready for market. This ever-growing stream of pure white sugar, the virgin product of a giant factory, represents great wealth for this community. It is not only the tangible result of the investment of a million dollars in a huge factory, but it means that year in and year out this great industrial institution will demand the product of the soil of hundreds of farms and enrich the owners and tenants.

IMMENSE PLANT. Construction on this immense plant was begun last September. Shortly thereafter, what was known as the financial stringency affected most of the industries in the country. But the men behind the Pacific Sugar Company kept right on with the big structure and financed the undertaking with remarkable ability. Many thousands were encountered in securing the proper machinery and in getting it here on time, but these were successfully overcome. Some of the parts had to be imported from Europe. No expense has been spared in making the plant the most up-to-date and complete in the country.

The men of enterprise and financial stability behind the industry let nothing interfere with their plans to erect solidly but swiftly, a commercial monument that reaches several thousand dollars.

DELIVERY WILL BE MADE AT ONCE. Head Forester Pinchot directed his forest supervisors to locate the stone, if it was found on a forest reserve as supposed. His men have not found it. Herold will bring it out in a round about way.

MIXED UP. AFFAIRS ARE COMPLICATED. SO SAYS RECEIVER OF DEFUNCT NEVADA BANK.

Charges Extravagance and Incompetence in Management—Says Loans Were Put Out on Bad or Worthless Security—Carson Branch Only Conducted Properly.

CARSON, July 20.—According to a long and detailed statement published here this evening, credited to Frank Wilder, who was appointed receiver for the State Bank and Trust Company, the affairs of the concern are shown to be in a complicated condition.

Charges of extravagance and incompetence are made, and loans are said to have been put out on bad, or worthless, security.

The statement takes up in detail the various branches of the institution and analyzes their condition and the manner of conducting them.

The Carson City office, branch of the bank, is reported as having been conducted in a clean manner, and the loans made are collectible.

LINEMAN GETS HARD SHOCK.

Thirteen Hundred Volts Pass Through His Body—Will Recover.

[ASSOCIATED PRESS NIGHT REPORT.] FRESNO, July 20.—While making fast a guy wire to an electric pole today and at the same time attempting to cut a live wire, B. R. Banks received a shock, 1300 volts of electricity passing through his body.

The ground end of the guy wire was in water, completing the circuit.

Banks fell headlong from the pole, but his arm became fast to a rope ten feet from the ground, and his body stopped with a jerk. He will recover.

HEAVY AUTO IS WRECKED. Dashed Over Embankment at Bellingham and All of Its Fifteen Passengers Are Injured.

[ASSOCIATED PRESS DAY REPORT.] BELLINGHAM (Wash.) July 20.—A heavy automobile stage coming in from Lyndon last evening was wrecked in this city, and every one of its fifteen passengers were injured.

The seriously injured are: Judge J. R. Criles, internal injuries, probably fatal.

Rev. Joseph E. Williams, collarbone and ribs broken, internal injuries, probably fatal.

E. McKay, driver, leg broken, internal injuries—will recover.

All of the seriously injured live in this city.

A tie stripping from one of the wheels was thrust in the steering gear, causing the machine to dash squarely across the street and turn a somersault over a twelve-foot embankment.

TOP PRICE FOR METEORITE. Tacoma Man Makes Bargain With New York Museum for Aerial Visitor.

[BY DIRECT WIRE TO THE TIMES.] TACOMA, July 20.—[Exclusive Dispatch.] The largest price ever paid for a meteorite will be given for one found last fall by H. U. Herold of Tacoma.

While cruising through timber lands in Whatcom county he located what is declared to be the largest meteorite on record. After much correspondence with museums, Herold has made a bargain with one in New York City. While the price is not revealed, Herold

EARNINGS NOT FULLY GIVEN.

Central Pacific and Salt Lake Statements Faulty.

Account Rendered by Santa Fe Also Dubious.

So Says Expert in Report to State Board.

[ASSOCIATED PRESS DAY REPORT.] SACRAMENTO, July 20.—G. T. Klink, the railroad taxation expert employed by the State Board of Equalization at the request of State Controller Nye to ascertain if the annual gross earnings statements of the various railroads operating in California as presented to the state board this year were correct, reported to the board today.

According to Klink, the San Pedro and Salt Lake line and the Central Pacific have not, by their method of figuring, presented an accurate account of their respective earnings for the last fiscal year.

The Southern Pacific and Northwestern Pacific Klink reported as having rendered accurate statements.

Klink stated that he was unable to determine as closely as he desired whether or not the report of the Santa Fe is defective to any great extent for the reason that the corporation in question does not keep a tabulated account of all its California earnings.

The expert called the attention of the board to the fact that several railroads branch lines from other railroad corporations, and do not include the earnings of the rented road in their statements of their own gross earnings.

Beginning tomorrow, the equalizers will hear the representatives of the various railroads to be assessed.

IMPLICATES OTHERS. Defaulting Agent of Puysall Indians Threatens to Drag Several Tacoma Men Into His Trouble.

[BY DIRECT WIRE TO THE TIMES.] TACOMA (Wash.) July 20.—[Exclusive Dispatch.] The lawyer in the disappearance last fall of Harry P. Liston, superintendent of the Puysall Indian agency, is deepened by the fact that the government has not arrested him, and by the sensational statement made in a letter from Liston, in which he demands \$5000 and became the subject of this city under a valued threat that

Death of Rengo, Which Is It For You?

Always Danger of Fatal End by Allowing Fat to Accumulate. How to Prevent the "Terrible End."

As a rule the victim of fat grows fatter. There is no stopping the growing of fat save by death. This is true, and sad because it is true. There are hundreds of fat people who positively do not believe it. And they die refusing to believe it. At first there is flabby-fat and then it grows solid. This solid fat accumulates especially around the heart; and although the heart beats, it beats with difficulty, until finally it will skip a beat now and then, then skip two beats and when it skips more than that—well, you will be already alone dead. These are facts. Startled relatives before whom fat victims have smiled one minute and died the next, can testify to it. It is not a laughing matter.

If you are a victim of this terrifying ever-growing disease you can save yourself from the day you begin to use Rengo.

How long, for instance will it take you to lose 60 pounds? As a rule only 60 days. In most cases there is a safe loss of a pound a day. Some of those 60 pounds will come off from that fat coating over your heart and save your life. Your health will at once grow better, the tangle of new fresh blood will make your muscles grow, clear your mind, regulate your whole body and make you happy.

This is exactly what has happened to hundreds of fat people who have taken Rengo. It can do the same for you—save you before it is too late.

There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by The Rengo Co., 3257 Reno Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail if you write them direct to Detroit; no free packages at drug stores.

For sale and recommended in Los Angeles by Owl Drug Co., 330 So. Spring St. and 5th and Broadway Depts. Stores.

Western Wholesale Drug Co., wholesale distributors.

L. Conley, a bartender, formerly of Los Angeles, was drowned in the San Joaquin River yesterday afternoon at White Slough, twenty-two miles west of Stockton.

Fifteen people were on a pleasure and fishing trip in a launch, when Jacobs and Conley, while trying to pass each other on the outside of the cabin, fell into the water, about forty feet deep, and were drowned before anything could be done to save them. Their bodies are now at the morgue.

Jacobs was active in local Democratic politics, and was for a short

Southern California Music. 332-334 South Broadway, Los Angeles, Cal.

ACCOUNTS ARE BADLY TANGLED. Book-keeper in Seattle Bank Under Arrest.

Short Twenty-five Hundred Dollars. "Endless Chain" System of Stealing.

[BY DIRECT WIRE TO THE TIMES.] SEATTLE, July 20.—[Exclusive Dispatch.] William C. Fry, book-keeper for the Seattle Bank, is charged with the theft of \$25,000 from the bank's accounts in Fry's charge.

The checker at the bank discovered the accounts in Fry's charge were badly tangled, and finally uncovered the "endless chain" system of stealing.

Fry was a sort of end-of-the-chain man. He carried an account at the bank. When he drew a check, he carried the money from the bank account, he would take it to another depositor. When he drew a check, he would take it to another depositor.

Afternoon Mrs. Willoughby chairman of civics of the Federation of Women's sent a letter to every club mentioning the county asking that each point to call up five voters by telephone each evening and to pledge them to support bonds.

Mr. Robertson also sent out letters to the same effect, advising to all members of the Movement Association of this action given to Mrs. J. Evans, president of the General Federation of Women's Clubs, at the house yesterday afternoon. A number of good roads was brought up. In a brief address Mrs. Evans urged the movement.

## SEWING MACHINES—

**New and Second-Hand.**

**IN REPAIR SEWING MACHINES, 25 YEARS**

## THE CITY IN BRIEF

## ELKS MEET IN 1909

"Elks' teeth" are much in evidence!

## NEWS AND BUSINESS.

## Assets Double Liabilities.

The firm of Caudwell & Demme filed a voluntary petition in bankruptcy in the United States District Court yesterday, with stated assets of \$400, and liabilities of \$200.

## Pentecostal Meetings.

Rev. H. P. Leonard, general superintendent of the Pentecostal Church of the Nazarene, will speak tonight at the revival meeting now in progress in a tent at Forty-third street and Main avenue, under auspices of the Grand Avenue Church.

## Resumes the House.

The residence of M. W. Sadiehl of No. 347 South Figueroa street, was damaged \$100 late yesterday afternoon by fire. A rubbish blaze was started in the rear of the lot. It spread to the dry vines, and finally reached the house. The place is insured.

## Fractured Hip.

While Jacob D. Ennis, aged 86, was walking down the steps in front of the Broadway Bank and Trust Company yesterday morning his foot slipped and he fell to the sidewalk. His right hip was fractured. He was treated at the Receiving Hospital. Ennis resides at No. 211 East Second street.

## Surprise Party.

Members of Knox Presbyterian Church, of which Rev. E. J. Harper, the City Forester, is pastor, last night surprised the pastor and his wife by the gathering of a large party at their residence. Mrs. Harper has just returned from an extended visit to the East.

## Ferged Checks.

George Mack of Brawley, Imperial county, was arrested last night in Los Angeles on a charge of forgery. He is held as a fugitive, and the officers of Imperial county will start for the prisoner today. It is alleged that he cashed three forged checks in Brawley, aggregating \$100.

## Art Works Expanding.

Brace Curtis and Lycurgus Lindsay, capitalists, have purchased a large interest in the Western Art Tile Works, and the plant at Tropic is being greatly enlarged to meet the increasing demand for the product. Mr. Lindsay will be president of the company and E. M. Durant, the heavy cattle owner, continues as secretary and treasurer.

## Where Are They?

Dr. W. McGirk of San Diego sought the assistance of the police last night in his efforts to find Mrs. Katherine Tippet and her daughter, Mrs. Eva Miller, who are supposed to be in Los Angeles. They came from the East several days ago, and were to meet Dr. McGirk in regard to a small estate which had been left them. So far, Dr. McGirk says he has been unable to find a trace of them.

## Avalon Bay Boatways.

The supervision of the War Department over comparatively trivial harbor improvements, is shown in the application of the Santa Catalina Island Company, filed in the office of Capt. A. A. Price yesterday. The company, which is one of the Banning concerns, asks permission of the government to construct boatways to extend 300 feet into the bay at Avalon. A map is on file in Capt. Price's office and all parties interested have the opportunity to enter a protest to the project.

## Head "Stake" Dies in Poverty.

A. W. F. Fisher, a pioneer, who was at one time worth \$20,000, died yesterday in poverty in his hotel at No. 877 East Thirtieth street, where he had lived three years. So far as can be learned, he leaves no relatives. The body will be buried by the pioneers of Los Angeles county. Fisher was 81 years old. He came to California in the early '50's, and had a "stake" in the mines. He lost it in speculation, and for the last few years, in his old age, he had been an object of charity.

## Funeral of Dr. Jewell.

The funeral service of the late Rev. Isaac Jewell will be held at the First Methodist Church, this city, tomorrow morning at 10:30, and will be conducted by Dr. John L. Pinner. Dr. R. A. Thompson will represent the conference, and Rev. R. S. Fisher the Colton church, which Dr. Jewell last served, will also be present. Burial will take place at 1 o'clock, where burial will take place, under the auspices of the Masonic lodge.

## U. S. Marshal's Heavy Business.

Business in the office of United States Marshal Youngworth is growing steadily until it has become one of the most important offices in the West. For the quarter ended June 30, expenditures totaled \$15,527.66, as compared with \$10,465.30 for the preceding quarter. The various items include: Traveling expenses of deputies, \$15,641.67; pay of jurors, \$2,444.60; witness fees, \$4,617.18; support of Federal prisoners, \$1,648.50; bailiffs, \$433; incidentals, \$2,134.85. Chief Deputy Al Bittel has been engaged in preparing a report for some time, and he has ready a huge bundle of documents, vouchers and bills to be forwarded to the Department of Justice at Washington.

## Forty Week Admission to Bar.

Forty young law students took the bar examination yesterday in the Supreme Court room. The applicants for admission were supplied with a series of questions drawn up by the judges of the Second District Court of Appeal. Former Judge W. H. Morris, holding of that court, supervised the examination. Today the class will be subjected to an oral examination by Presiding Justice Allen and his associates. A few weeks ago a number of young men were admitted to practice upon presentation of their diplomas from the University of Southern California law school. A large part of the students now seeking admission are students in law offices or else studied in law schools whose diplomas do not admit to the California bar.

## Cannell Company, Funeral Directors.

201 S. Grand ave. Telephone 3-180; 7205

## ELKDOM'S EMBLEM.

Official Design Adopted by Grand Lodge—Oklahoma Members—All ready Arranging to Come.

The first official emblem which the Elks have ever had was adopted at the recent Grand Lodge Convention in Dallas. It is slightly different from the emblem used in the past, and will not necessarily displace any of the buttons or charms now in vogue. It will, however, be the only recognized official emblem of the order.

The emblem consists of a combination dial, showing the hands of the clock pointing to 11, the hour when the Elks gather throughout the world to toast their absent brothers. The face of the dial will be of white metal, and the numerals will be of red, and of 18-man character. A blue circle on which the initials E. L. K. will be engraved will form the base for the dial's head. A star in red will rest between the hands.

J. McGarry, grand exalted ruler of the Los Angeles lodge, in speaking of the design yesterday, declared it a great necessity, since it affords a basis for copyrights, which the ordinary elk head or tooth will not allow. "It means that those who are attempting to pass off cheap imitations of the emblem will be liable to punishment, and it will make it impossible for other orders to copy, particularly the colored men, who at present have a society which they call the American Order of Elks, but which is in no way allied with our organization."

John G. Mott, past grand exalted ruler, speaking of the discontinuance of the use of the elk head, said that no members of the society have them, it will be impossible to do away with them. "We will not, however, discontinue the useless slaughter of the noble elk, and wrote a letter to that effect to President Roosevelt, asking for further legislation toward their preservation. The Elks were at no time the cause for the slaughter of the harmless animal which stands as their symbol."

A ruling in regard to the selling of the new badge, which was passed, will not allow the grand lodge, any of the subordinate lodges, or any of the officers as such, to engage in its manufacture or sale. Jewelers will handle it.

Dispatches received last night from Ardmore, Okla., state that Ardmore Los Angeles Club No. 1 was originated by Ardmore Elks Lodge No. 841 yesterday, over fifty members enrolling for the trip to this city next summer. The Los Angeles hospitality to the club last week so impressed the 125 Elks in attendance from Ardmore that all are enthusiastic over coming here. Committees have been appointed on transportation, badges, parade and entertainment, and every effort will be put forth to sustain the reputation the forty-sixth State won at Dallas.

## SWEDISH REPUBLICANS.

Club Appoints Executive Committee to Take Charge of Organization.

Work for Primaries.

The Swedish-American Republican Club, at a meeting in the rooms of the Republican League last night, placed the work of organization for the primaries in the hands of an Executive Committee, and decided to establish permanent clubhouses for the campaign work at a place soon to be selected.

There was a large attendance, and reports indicated that of the four thousand or more Swedish voters in Los Angeles county three-fourths will vote the Republican ticket.

The Executive Committee, which will proceed at once to the primary organization is headed by John A. Hermanson, president of the club, and includes: Bertin, Martin Dalton, Joseph S. Bergman, Oscar Norrel, O. Pearson, A. H. Johnson, A. P. Anderson, E. Elvik, N. Olson, Emil Lund and E. Kjelgren.

Since the meeting of the club a week ago sixty-eight members have been added and the active membership is now in excess of two hundred.

## FLEET TO MAKE RECORD.

WASHINGTON, July 2.—[Exclusive Dispatch.] At no time during its long voyage from Hawaii to New Zealand and Australia, will the Atlantic fleet be out of touch with the Bureau of Navigation, a feat which has never been accomplished before.

Communication between the ships and Hawaii will be maintained by wireless until the fleet comes within wireless distance of the Fiji Islands. While there is no wireless station in that group the supply ship Glaceter has been sent ahead to take station at Suva and be prepared to pick up the fleet as soon as it gets out of touch with Hawaii. The wireless station at Suva will be maintained by cable from Suva. The wireless stations at Auckland and San Francisco will be maintained by cable from the fleet while it is half way between Suva and that place.

## BREVITIES.

To Let—Handsome fitted office and exhibit space of desk room, also basement, in premises occupied by new branch office of The Times at 131 S. Spring st.; splendid location; suitable for California products display and well adapted for headquarters of excursion, steamship or railroad enterprise. Established information bureau now conducted in connection. For particulars and rental cost, apply on premises, or to Manager's office in the Times Building.

The only woman oculist in Los Angeles. Dr. Gertrude Beebe, eye specialist, late of staff Manhattan Eye Hospital, New York City. Scientific examinations. Consultations free. 208 Mason building, Fourth and Broadway.

For one week we will sell \$2.50 and 25 cigarettes and specialties for \$1. Fitted to your eyes by State-registered optician. Clark's Optical Parlors, 204 S. Broadway, near Second st.

Stop at United States Hotel. Remodeled and newly-furnished. Finest rooms at most reasonable prices. Try new Milano restaurant; excellent service, in hotel building.

Neat, ladies' tailor and gown builder, 444 S. Broadway. First showing of fall materials; \$5 tailors grows our leader. Fancy gowns, \$45 up.

"Ibsen and Shakespeare" is the subject of Dr. Richard Burton's lecture, 10:20 Wednesday morning. Shakespeare clubhouse, Pasadena.

Dr. Z. P. Hoy, eye, ear, nose and throat, Second and Broadway. Room 414.

Lewis Single Binder Clear-richest, most satisfying smoke on the market. For pure gluten bread go to Grant's Bakery, 327 West 5th st. Phone 3-180.

# PUBLIC SERVICE OFFICIAL DOINGS.

## SUMMARY OF THE DAY.

A delegation of citizens from Garvanza yesterday asked the City Council to take the railway franchise from the Pacific Electric Railway on Avenue 44.

The Westlake district was made safe from the encroachment of hospitals by defining a new "residence district."

The City Council yesterday ordered powerful automobiles for the police and fire departments.

The Board of Equalization yesterday heard statements from the Home Telephone and Telegraph Company, the Long Beach Hotel Company, the Long Beach Bath-house and Amusement Company, and other corporations, in support of demands for a reduction of assessments.

The trial of the Walnut Irrigation District's suit against J. H. and Osborn Burke, to determine water rights, was begun before Judge Houser, yesterday.

Three women, relatives of W. L. Yokley, a Long Beach epileptic, who was committed to Patton yesterday by the Lunacy Commission, fainted in court during the defendant's examination.

Judge Houser yesterday awarded D. M. Johnson \$175 as damages in his suit against E. W. Coleman for assault.

Judge Wilbur heard evidence yesterday in the suit of G. T. P. Smith against the Salt Lake Railroad Company for \$25,000 as damages, alleged due to partial loss of eyesight.

## AT THE COURTHOUSE.

### TIME NOW PAST FOR PROTESTS.

#### UNUSUALLY LARGE NUMBER FILED THIS YEAR.

Seven Hundred and Sixty-five Corporations and Individuals Complaint of Excessive Property Valuations. Telephone Company Among Last of Objectors—Long Beach Prominent.

The unusually large number of 765 valuations of property has been filed with the Board of Equalization up to 5 o'clock yesterday afternoon, when the time for protests expired. The work of fixing reductions to be allowed, if any, will probably occupy the remainder of the week.

A. B. Case, president of the Home Telephone and Telegraph Company, urged that the valuation of \$2,012,445 be reduced by \$700,000 and in particular that the Los Angeles street franchise assessment be cut from \$945,750 to \$234,000.

"At telephone service rates as fixed by the City Council, our Los Angeles street franchise is worth about \$200,000," said Mr. Case. "That's what we paid for it several years ago, and although we couldn't do business without it, I don't know that we could now buy cables at ten cents a foot for which we paid sixteen cents a foot last year."

"Yet under the present assessment, which is lower than that of last year, your phones pay about forty-three cents a line," said County Assessor Hopkins. But Mr. Case thought the rate excessive, and the matter was under advisement.

W. J. Williams, representative of the Long Beach Hotel Company, stated that its real estate, assessed at \$111,000, is worth only \$50,000, the \$61,000 paid in 1904. He asked an assessment of \$25,000 and that the \$36,000 assessment on improvements of the hotel corporation be cut to \$10,000.

The Long Beach Bathhouse and Amusement Company, which has its assessment of \$124,000 on hand, asked to be cut to the more equitable figure of \$75,000.

The Seaside Water Company asked that its \$34,000 street franchise assessment be canceled, as it owns no franchise of the kind, and the Postal Telegraph and Cable Company wanted the \$30,250 assessment on poles cut to \$24,000.

Assessor Hopkins told the board that the county assessment on Long Beach property has been on a lower basis of valuation than the City of Long Beach assessment. This was in reply to the protest of Mayor Windham of that city, who alleged discrimination against the city.

The closing hours of the afternoon were spent in hearing the protests of city Long Beach property owners.

**PUZZLE FOR COURT.**

Judge Houser yesterday heard evidence in the suit of the Walnut Irrigation District against J. H. Burke and Osborn Burke, which involves a definition of water rights long in dispute. The trial is expected to continue for a week.

The plaintiff asserts that it owns all water running through the Standifer ditch from the New San Gabriel River, in excess of that required for the irrigation of the 124-acre ranch of the Standifer Ditch Company. This water is distributed proportionately among its stockholders, but that the Burkes' water rights were a portion of the water on the older Burke's sixty-acre ranch and on Osborn Burke's twenty-acre ranch, and that they divert it without right from the plaintiff's ditch. The court is asked to enjoin such action, and decide the water rights to the water. If any such is found to exist, the Burkes say they have an ancient prospective right to the water; that since the building of the Standifer ditch from the New San Gabriel River, they have continuously exercised the right of carrying water from the ditch for the irrigation of their lands, and that not until recently has this right been questioned. They also ask the court to determine the amount of water they may use.

**INBATHY'S SADNESS.**

**MAN WOULD DIE—WOMEN PAINT.**

C. B. Judd of No. 237 South Bunker Hill avenue, who disappeared from his home last Saturday night in a deplorable condition and attempted suicide at Sherman Sunday evening, was arraigned before the Lunacy Commission yesterday, and his examination set for Friday.

Judd has been suffering from religious mania since an illness and became possessed of the idea that he must kill himself. He threw himself into an oil lamp, and was dragged out with difficulty. Constable Bottomfield took him to the County Hospital yesterday, and then his wife first learned of his whereabouts.

W. L. Long, a young married man of Long Beach, who suffers from epilepsy, and recently threatened the life of his wife, was committed to Patton yesterday. His father died of paresis at that institution a year ago.

His mother and two sisters, who were present when he was arraigned yesterday, were so deeply moved that they fainted, and were carried from the courtroom one by one by Deputy Sheriff E. H. Hutchinson. After they were revived, they were in a hysterical condition.

**JUDGE REMINISCENT.**

**ASSAULT CASE RECALLS PAST.**

Harry D. Johnson was awarded \$175 as damages yesterday by Judge Houser in his civil suit against E. W. Coleman for assault, the sequel to a fight that followed a collision between the plaintiff's bicycle and the defendant at First and Spring streets in July.

Evidence was given that Johnson, while riding his bicycle, ran into Coleman, and that the latter gave the bicyclist such a drubbing that several stitches were taken in his scalp. Coleman's counsel contended that the fight was provoked by Johnson, and that the defendant struck on impulse.

"I had an experience something like that myself once," remarked the court, with a smile, touching his lip as he spoke. It is said that some time ago, when the judge was a young attorney, John Jeffries, a brother of James J. Jeffries, ran into him with a bicycle; that the judge, who was on a bicycle, was thrown, and made a motion at Jeffries, who entered such an effective exception that judgment was recorded for him at once.

**BLIND IN ONE EYE.**

**TORPEDO EXPLOSION.**

The trial of G. T. P. Smith's suit against the Salt Lake Railroad Company for \$25,000 damages for the loss of the sight of his left eye came to

## AT THE CITY HALL.

### GARVANZA ASKS GOOD SERVICE.

#### WANTS CITY COUNCIL TO TAKE AWAY FRANCHISE.

Pacific Electric Under Fire in That Section—New Residence District Fixed to Shut Out Hotels—Electricity to Be Limited to Burials Within Present Space.

A very warm delegation of citizens from Garvanza was at the meeting of the City Council yesterday, asking that the franchise for a street railway on Avenue 44 to the golf links, by way of the Church of the Angels, be taken away from the Pacific Electric Railway, on the grounds that it has not kept faith with the people.

Their woes were many and grievous, and they minced not their words in telling of them. So horrid a tale of inconvenience and corporate disregard did they tell that even "Billy" Dunn, attorney for the railway, said: "If it's as bad as they say, they surely ought to have better service."

Action in the matter was postponed for one week, and Councilman Brown and Wallace promised to accompany the committee on a visit to the railway officials tomorrow morning, to see what can be done to aid the Garvanza people.

**Hospitals Barred.**

On motion of Councilman Pease another section, comprising more than 100 city blocks, was yesterday described as a "residence district," in an ordinance passed by that body. In a general way it is bounded by Ocean View avenue on the north, Winfield street on the south, Concord street on the west and Valencia on the east. The effort to establish a hospital near Westlake Park, probably gave rise to the ordinance, which removes all unseemliness from that source.

**Curtailing Cemeteries.**

An ordinance was finally passed yesterday making it unlawful to bury dead human bodies outside of those portions of Evergreen and Rose-dale cemeteries now in use for such purposes. Evergreen Cemetery, having well-defined limits, was easily covered by the ordinance but some deaths occurred in getting an exact description of Rose-dale. As the ordinance, it includes all that portion south of Sixteenth street, and a space 125 by 140 north of that street. About thirty acres which had been contemplated for cemetery use is thrown out by the new ordinance.

**Cash for Aqueduct.**

In connection with the contract with Kountze Bros. and A. B. Leach & Co. for the sale of the Owens River bonds, a former ordinance providing for the sale of \$2,000,000 Class B bonds was repealed, and a new ordinance passed increasing the issue to \$2,500,000, bearing interest at the per cent. The bonds of \$25,000 Class B and Class D bonds by the City Treasurer were also repealed by ordinance.

**City Hall Briefs.**

The council yesterday ordered two more club wagons for the city's use. The first is a powerful machine of 75-horse-power, for the use of the police department, costing \$4000. The second department gets a 50-horse-power machine, costing \$2500.

An ordinance was presented to the Council by the City Attorney extending the powers of the Billboard Inspector to cover all forms of advertising signs, posters and printed advertising of all kinds. It was sent to the Finance Committee.

Final action was taken ordering the paving of St. Vincent's Place from Sixth to Seventh street, between Hill and Broadway. This is the alley over which such a stir was created when an effort to widen it was made, and it was abandoned on account of the excessive cost of the improvement.

Andor Muehl said yesterday that as was now confident that he has sufficient money in sight to pay the warrants of city employees for the months of July and August, leaving only September on the edge of uncertainty.

**HARBOR MAP GOES EAST.**

If Approved, Land Owners May Begin Improvements Unless Titles Are Contested.

The report of the harbor board is now on its way to Washington. Capt. A. A. Fries, who is a member of the board, believes that the War Department will approve it. In that event owners of lands adjacent to the harbor at San Pedro can begin the building of docks, piers and warehouses, unless, as is expected, there are contests in the State courts over titles.

Before the official map of the harbor board is approved by the Secretary of War, protests can be heard and representatives of the Banning and the Southern Pacific companies may appear before Brig.-Gen. William Marshall, the newly-appointed chief of engineers, to protest against the lines favored by Col. Biddle, chairman of the board.

## WARNINGS DISREGARDED.

### No Clemency Shown Violators of Pure Food Law—Many Fined in Justice Court.

After repeated warnings during the past six months, violators of the pure food law were taken before Justice Summerfield yesterday morning, on complaint of Deputy Dist.-Atty. McCortney, who has charge of the pure food investigation. As all dealers had been given ample time to comply with the statutes, no clemency was shown and a fine of \$50 was imposed on each of the transgressors.

George A. Townsend, whose grocery is located at No. 4405 Central avenue, was convicted of selling butter made by the Creamery Company of Los Angeles, labeled "Creamery Company, Hynes." Artificial coloring matter in raspberry soda water and in "peach mellow" brought a fine for H. W. Stoll, a manufacturer of various soft-drink concoctions, at No. 202 Commercial street.

The downfall of nearly all the others was due to the use of benzene sold in various compounds and mixtures without the proper labels attached. Charles Clark, a pickle manufacturer of No. 127 St. John street, was found guilty of selling chile sauce containing too much of the acid. David A. Worley sold the same under the name of "Hotter Red Hot."

James P. Adams appeared for the R. L. Craig Company, of which he is cashier. This firm retained some old stock tomato catsup on its shelves which contained benzene acid.

Four men, two of them Japs, were found guilty of selling \$11.50 adulterating with acid a "Worcestershire sauce." The men are H. Koga, P. Antonovich, E. Buni and I. Itami.

R. G. G. King, a manufacturer of California Macaroni Company, was called upon to explain the use of yellow coloring matter in macaroni, and not giving satisfactory answer, was fined.

**A GOOD TIP.**

**WOULDN'T STAND FOR BILL BRYAN.**

**THE ORPHEUM AUDIENCE HOOTS AT HIS PICTURE.**

Cartoonist Levy Misinterprets Popular Opinion at Yessville Theater, and is Given Disrespectful Local Presidential Preference.

Bert Levy, cartoonist, has at last found a correct balance between current political opinion in Los Angeles and the Orpheum on Saturday afternoon, he was howled down for respectfully suggesting that an impressionist's drawing of Bryan might be apropos.

Levy's cartoon is a head-and-shoulders portrait of Bryan, with a headline: "Until he foretook newspaper illustration for the stage, he was official cartoonist of the New York Morning Telegraph, and there he learned to do the rapid-fire sketching which has since been so useful to him in a monetary way."

Levy usually makes pretty women and notable men, either of contemporary affairs or of history, with little more of power and wit than a relief to the more serious undertakings.

Saturday afternoon he tried a little venture on politics.

"Ladies and gentlemen," said Levy, "drawing tools in hand, 'I offer for your acceptance either one of two pictures. The first is a portrait of Bryan, and the second is a portrait of Bryan. Shall I draw Bryan or Taft?'"

The single-syllable word crashed like a volley of bullets against the Orpheum proscenium.

Levy's cartoon was somewhat piqued because he had not been allowed to finish his question, and, clearing his throat, he threw on about two notches more of power and wit.

"As I was about to remark," he volunteered, "I merely want to get your attention."

"Taft! Taft! Taft! Taft!" This one scattered and splattered like the volley from a falling, running back and forth over all parts of the house.

Levy remained motionless, in an attitude of deep attention.

"I am waiting," he remarked somewhat satirically, "for a possible echo."

And it came. A belated youngster in one of the upper boxes, who didn't know what all the racket was about, but who had learned at least one word by constant repetition, gathered himself together, swallowed his lungs almost to bursting, and squeaked out one shrill, high-pitched "Taft!"

The general laugh made Levy mad. Back to the little table, from which he works he threw on his powdered apron, pushed a black disk in front of his stencil, and began to work. Presently, beneath the deft strokes of his steel point, the well-known brow and forehead of the great Common one began to appear.

At first there was only a general laugh in front, beginning good-humoredly at the edges of the crowd, and spreading gradually to the middle.

Then somebody yelled, "Imitation!" "Frank!" howled another.

"Back to the comedy!"

"You're eight years too late!"

"Call the undertaker!"

"Nigger!"

"Cut it out!"

"Help!"

The front row started a long, deep groan, and the demonstration became general.

Levy, baffled and beaten, snapped down his light violently, and the stage manager threw on the "foots," illuminating the stage.

The artist came forward.

"Say, you people," he exclaimed disgustedly, "I realize that there are a few men in front who want to see a Taft picture, but I'm not going to bring all this stuff for the orchestra. The gallery has to come in once in awhile. Now, you fellows, continued Levy, looking above, "don't mind me. I'll bring pictures for you. I think I ought to be allowed—"

But he was interrupted. A hoarse, croaking voice from the gods interrupted, forcefully: "You carry your legions to some other market; this ain't no fruit store!"

There was a nice, large, life-like Taft picture.

**CONFIRMS GOLD REPORT.**

The Bonnie Claire Mining and Milling Company reports that it has received word from the United States Geological Survey of the strike of gold in the company's mine. In a letter the company's agent says: "That rich strike is the real thing and has been reported. They have the place gauged now and are preparing to take a wagonload to Goldfield. The Randolph mine recently started up is opening up some very fine ore."

**Yosemite Valley.**

Yosemite Valley was reached daily after short and pleasant trip by Southern Pacific. Merced Yosemite Valley Railroad and twelve miles stage ride. Information may be had at City Ticket Office, No. 600 South Main street, corner South street and Angeles, or from any agent of the Southern Pacific.

# Some Cold Facts Ice Boxes vs. Refrigerators

**A N ICE BOX** is an old-time makeshift. It has been proven worthless long ago. They waste ice, become damp and fall in a short time, breed impurities and diseases, contaminate the food and cannot be kept clean, pure and sweet.

The Bohn Syphon White Enamel Refrigerator put us into the refrigerator business. Up to the time we investigated the claims of the Bohn Refrigerator, we believed we would never find a refrigerator good enough for us to sell under our guarantee.

The Bohn Syphon System (involving the identical principle and system of construction) is used by all the large railroads where business is refrigeration, and they are not taking any chances. Refrigeration is a business with them; the saving and keeping things longer either in dining or refrigerator cars means thousands of dollars to them for every extra hour.

Don't experiment any longer, waste money and endanger the life of your family by continuing the use of inferior wooden boxes. The Bohn System sends a germ-killing current to every corner of the food chamber. To test and prove this, take a lighted match, put it where the base of the ice chamber enters the food compartment. In this test the match will be almost extinguished.

We want you to inspect this remarkable refrigerator, with its enamel, opalite or porcelain lining. We believe you will admire its enjoy its beautiful finish, symmetrical lines, interior spotlessness and daintiness. We feel sure you are entitled to the use of one of our peerless refrigerators in your own home.

Of course, a Bohn Syphon Refrigerator costs more than a wooden box, but you are saving in ice, saving in foods and having an absolute guarantee that the things you eat are absolutely pure.

Are you getting the best results from your refrigerator? You should like to have you come in and see the Bohn Syphon, where you want to buy or not.

**CONQUERING.**  
(Continued from First Page.)

the first question to be asked is that of an adequate water supply. The city of Los Angeles has been fortunate in having a water supply which is not only abundant but also of excellent quality. The city has been able to develop its water resources in such a way that it has been able to supply its needs for many years to come. The city has been able to develop its water resources in such a way that it has been able to supply its needs for many years to come.

**THE OIL INDUSTRY.**  
**KNOB HILL FIND EXAGGERATED!**

**LATEST REPORTS SAY IT WAS ONLY A POCKET.**

Hard Shell Struck Below and Shot Is Reported to Newport Bay Company's Second Well Fails to Get Oil, Though Under Where Found in First.

For weeks it has been impossible to get any hint of the Knob Hill at Midway, whose reported strike of 25-gravities has caused much excitement and apparently started the present rush for the Midway-Sunset flat. The quiet work has been in progress in known, and now comes the statement that the find has been greatly exaggerated. While any reports on this score will be greeted with a shrug, the fact that the find has been exaggerated is a matter of fact.

The strike of light oil is a fact, but it appears to have been a pocket, the sand being about ten feet thick. The find was made through the sand and came to a hard shell which it failed to penetrate. Shooting was decided upon, and after much delay, it was done successfully early last week and string is again working its way down.

The story of the find, however, appears to have been quite generally accepted. Whether it has been exaggerated or not, the Standard would never invest money on a mere rumor. The big company is clearly satisfied that the find is a good one, and it is going to try to get it.

The story is to say that it has some basis for its belief. From the Knob Hill strike, it is believed that the find is a good one, and it is going to try to get it.

**Newport Bay Operations.**

The Newport Bay Oil Company is down approximately 3100 feet in its second well, located only 800 feet from the first. The light oil was struck at 2000 feet, but not a sign of petroleum has been found showing a decided dip or a break in formation. The first also had a very heavy oil at 1800 feet, which has been entirely lacking in the second.

The Balboa well, three-quarters of a mile north of the first Newport Bay hole, is below 2000 feet with encouraging signs. There is a very strong gas pressure, requiring the constant use of a great amount of water. The Kellerman string, east of the Newport Bay No. 1, is down 500 feet with very good showing.

The first Newport Bay well, No. 1, while yielding oil, was not a success, as it finished a four and a half-inch hole and the water could not be handled conveniently. The company finally decided to put down another before attempting anything further. The second has reached its present depth with a six-inch hole so that the former trouble is avoided.

**Oil Gains on Water.**

Oil is gaining on the water in many wells of Kern River, in the opinion of operators. Certain it is that the fear that was so prevalent a few years ago is now gone and contempt is expressed for that which once sent shivers of apprehension down the spine of every oil man in Kern.

A strange feature is that the oil seems, according to some of those who have been in the business for many years, to be coming in from the north end. In the northern extremity some wells are actually producing more than ever before. For example, the Potomac No. 2 is declared to be yielding 100 barrels a day. Although its early output never exceeded forty to fifty. The same condition is observed at some wells near the Mecca and several other properties.

Kern River's production is now estimated at about 40,000 barrels daily, sometimes up to 45,000 or 46,000, by far the highest in four years. The West Shore is said to have a monthly production of 42,000 barrels.

**Section Six at Kern.**

A hundred and thirteen feet of sand is what Jastro & St. Clair reported to have at 1000 feet on the northeast forty-acre lease on section 6, belonging to John Enos, and whose producing ability was seriously questioned by experts for years, but which was nevertheless tested on account of the owner's attitude. It is on the field's extreme west. The Monte Cristo, on 5, which is a section of the same field, is developed for the first time along the edge. At present the entire west line of No. 5, held by the Monte Cristo, Macomber, Del Ray, Cortez and San Joaquin, the last Associated properties whose original leases have practically gone out of existence. There are many acres on all these untouched which are likely to be developed soon if the report of strike on 6 is accurate. In fact, it is reasonable to look for prospecting here to some extent in any case.

**Will Drill on Vulcan.**

W. S. Morton, now sole owner of the Vulcan's property on the north line of section 5 in the extreme southern edge of Kern River, has ordered a standard rig for his second well. The first, drilled by the former operators, he cleaned out and put in shape to produce. The well is now being developed in this almost abandoned part goes far to show the rapidly reviving interest in the Kern River oil. Mr. Morton, moreover, is not one who would undertake work blindly, as he

**YELKO**

Makes lightful, delicious, digestible pastry without either eggs or baking powder.

It's a pure vegetable compound that contains the properties of eggs and baking powder in a highly concentrated form.

It's simple, clean and convenient—always fresh and potent—always certain in results.

And it costs less than half as much as eggs and baking powder.

Conforms with every requirement of the pure food law.

Recommended by hundreds of discriminating housewives and prominent chefs.

25c can at wide-awake grocers.

below actual cost. The Southern Pacific company, as every one knows, was forced into the affairs of the valley and control of the California Development Company in protection of its own interests. So far and up to date the action of the Southern Pacific has been beneficial in every way to the valley. It has been more than that. Epes Randolph and his able assistant, Mr. Cory, are recognized as the saviors of the valley. In turning the Colorado they made history. Booked by the splendid equipment of the Southern Pacific, they performed an engineering feat such as the world has never before seen.

So far there is a good feeling toward the Southern Pacific in the valley. You hear many expressions of congratulation that the valley has the financial backing of the Southern Pacific and Mr. Harriman. But what of this backing now? What of the million dollars that was appropriated for the betterment and completion of the system? What of the cement head gates and big-line canals needed so badly? Do the valley people imagine they will enter into litigation with the best equipped and most resourceful and relentless fighting machine in California and the United States and get anything but great financial loss out of it? Let the contentious one remember that the Southern Pacific Railroad Company is also a corporation framed up in elegant shape to make money for its stockholders, consequently we can expect an altogether philanthropic attitude on the part of its officers, who would not be doing their duty if they overlooked any chance to make money for their company.

The different mutual water companies' presidents and boards of directors can well afford to take the initiative for the calling of a representative convention of all parties in interest, to formulate a plan of settlement, the basic principle of which is to be ownership by the people of their water system, either under a permanent rate-making law or special act of Congress, or the Wright Act; in fact, a permanent association should be formed with this end in view.

**WILLIAM B. RAYMOND.**

**Who Votes at the Good Roads Bond Election?**

LOS ANGELES, July 18.—[To the Editor of The Times:] Who votes at the good roads bond election? Answering my own question I presume any property holder in the county of Los Angeles, the larger portion of the vote coming out of the city. I suggest another question: What benefit is a good road or boulevard, to the wage-earner of the city? None. He does not travel the county roads five miles in five years. When he goes, he goes by electric car. The wealthy man with his auto wants the good roads for he drives on them. Then let the man benefited be the man to pay. If I want a good street in front of my property I have to pay every cent of it and every man else in the block does the same. Then if the man who has to pay for it, the city man has to be added with this debt to pay; it is most unjust. The wage-earner today is saddled with all he can pay. The city and the county tax combined is 2 1/2 per cent. on a large assessment. That is the limit. I like good roads, good streets and if I can be shown where the poor man of the city is benefited by this large expenditure then I shall readily vote for it. I ask you to give this letter against the bonds as prominent a place as you do those for his bonds and treat all with the same kind and just consideration in this election as is characteristic of the people of Los Angeles. **Note Carefully These**  
**New Offerings Today**

A striking feature of our announcement today—and equally true of practically every advertisement of Barker Bros.—is the fact that every article illustrated and described is new and has not been advertised before.

We do not select a few staple articles merely for "leaders" and use them over and over again as "bait."

The exceptional values featured and described are not confined to a few restricted articles, but embrace a wide range of choice, selected at random from our stock.

The "sharp" tactics employed by some houses who issue orders to their sales force not to sell advertised goods except as a last resort, are not tolerated by the house of Barker Bros.

Every salesman in our establishment will show any article advertised without the least effort to divert the customer's selection to something else, and will cheerfully sell the advertised articles without prejudice to his own interests.

It pays to buy at Barker Bros. It pays to watch Barker Bros.' announcements. You'll find many advantageous opportunities for quality-gaining, money-saving purchasing. You'll find not only better values, but a better selection—newer, choicer merchandise in every one of the different lines which comprise our magnificent and matchless stock. And you can depend upon the truthfulness of our advertisements. When we feature an article as a \$10 value, you can depend that this is the bona-fide, genuine and actual worth as asked in the average furniture establishment; if we offer this \$10 article for any less amount, it constitutes a bargain exactly to the extent advertised, as compared with prevailing values elsewhere.

Yesterday's Regular Edition..... 100,000  
 The Times has a far larger circulation than any other newspaper in the city. Its circulation is growing steadily and its advertising rates are the best in the city. The Times is the most influential newspaper in the city and its advertising is the most effective.

Official Times Building, First and Broadway.  
 Entered at the City Postoffice as mail matter of the second class.  
 Part II: Editorial and Business—City and Country

## TAFI AND SHERMAN.

For President. For Vice-President.

## Editorial Points

What the country needs is some man to steady it, and William Howard Taft is the man.

It would be a mistake to elect a man President who could not do anything after he was elected.

It seems that with the exception of the Lurline the boats in the Honolulu race merely "also sailed."

Of what use is it to Mr. Bryan to carry the West if he loses out in the East? And, besides, he can't carry the West.

It might not be out of place to ask Mr. Bryan what he would do to the tariff on California fruits if he had the power.

The dove is the symbol of peace, and yet doves are being slaughtered by men with guns just for what they call "sport."

It is difficult to understand why any man with feet to walk on or a wheel to ride on should oppose the good roads movement.

Bryan has already begun to tell what he will do if he is elected. In other words, he has already begun to scare people off.

We fail to see why Democrats should have any stronger hopes of carrying California than they have of carrying Pennsylvania.

Three hundred miles of good new roads in Los Angeles county added to what we already have will at least be a fairly good beginning.

Aerial navigation has already progressed to the extent that most of the thrillers on the first page relate to dirigible balloons or airplanes.

No matter how the thing may go, it is quite apparent that the form of Lincoln, in Nebraska, intends to get all it can out of the excitement.

The Princess Alice is a good mixer. She is equally at home with the "Four Hundred" at Newport and Tammany Indians in the wilderness.

It is the fact that Leslie Carter is worth \$3,000,000, and not the fact that the lady whose husband he once was is an actress, that makes him interesting.

The East reports that it is suffering from the hottest summer it has had in a half-century. This again raises the time-worn question: Why is the East?

If the typewriter girl is to be eliminated from the landscape by a new Ohio invention, life will lose some of its charm and a great deal of its excitement.

A dog up in Oregon rescued three girls from drowning. And yet we sometimes find fault with a woman for thinking more of dogs than she thinks of men.

Although we are the best of friends as it is, old friend China wants to warm up to us a little more. Steps should at once be taken to meet her at least half way.

The country is now to witness the pathetic spectacle of certain wind-jammers endeavoring to inflate the Democratic donkey so that he will look perked up.

A man may say he will take no interest in politics, but just about that time his neighbor, who votes the other ticket, will come along and start something.

It is Mrs. Leslie Carter's first husband who is ill in Chicago. Several of the later husbands of the fair lady are enjoying fairly good health, as far as can be learned.

A dispatch says the Pittsburgh police have decided to regulate bathing suits. We would like to know what any one can have for a bathing suit in Pittsburgh?

We regret to know that the man who composed the Mexican national hymn is dead, but we will never be compelled to regret the death of his immortal composition.

We may make laws regulating the actions of balloons, but when they get in the air it will be a difficult matter, we should think, to prevent them from doing as they please.

It appears that the people on this Coast may as well resign themselves to fate. Both political parties have announced that they will send their most eloquent orators into "our midst."

In view of the way he is about to tear things up, we think it is entirely appropriate that Mr. Taft has been made an active member of the Brotherhood of Steam Shovelers.

The entertainment of the Italian sailors now in this unit port of glory should not be left entirely to their own countrymen in Los Angeles. Let us also give them a taste of American hospitality.

When a man starts to go up in the world he naturally begins to make money. Take, for instance, Henri Farman, who is to receive \$300,000 for making fifteen balloon ascensions in this country.

## MIDSUMMER MELODY.

Sing a song of sunshine, faces full of smiles, twenty thousand tourists traveling many miles. When they get to this Coast all begin to sing, "Never such a country on the earth's round ring." Raising o'er the mesa, skimming by the streams where the rose is blooming and the sunlight gleams, up to cool, dark cañons, by the ocean's shore, never saw a country like this before. Up among the tall pine trees on the mountain's brow; out among the breakers where the swift yachts plow; over on the islands, fishing for big trout; over on the dark pools where fountains clear break out; no matter where you're going, no matter how you go, the land of lasting sunshine has no match here below. Thus tourists go on singing, thus they write to friends of all the many pleasures that to life the Southland lends. Hurry up the good roads, dig the waterway, make your land more glorious with each passing day! All the world is waiting, sighing till they may for this bright land of beauty be upon the way.

## CITY COUNCIL'S MISTAKE.

The City Council has made a mistake in its hasty step repealing the ordinance requiring that speakers of every stripe shall secure a permit before disturbing the circumstances of the public in the streets and squares, or be liable to arrest. The repeal is class legislation—against the interest of the large majority of the public and in the interest of a small class.

The streets and squares are the public's; they are for the use of all the public; they are not to be seized and occupied by preachers or exhorters and their followings, of any sort or description. The great majority of the people use the streets and squares, not for auditions or gathering-places, but for the orderly transaction of business and for the passage from one point to another; it is exceedingly obnoxious to most of us to be unpleasantly obstructed, coarsely howled at or jeered, or rudely sung to, squawked at, exhorted and jostled by blatant street talkers and

**Willows : Spreads**

When the heat thermometer rises, the thermometer goes down, at \$1.25 for the \$1.50 sorts, \$1.75 for the \$3.00 qualities.

Warranted odorous and germ-proof, and first-hand, pure feathers, at \$1.25 for half-sorts; and up to \$9 for \$10 sorts—its finest.

Made in all good patterns, buyable from 50 pieces—regularly \$1 to \$8.

By this article we can show a number of prices differing with regard to quality,

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## BLAZING WRATH IN FIREHOUSE.

DR. SCHERER NEW PRESIDENT OF THROOP INSTITUTE.

Action by Wideawake Bodies in County Leads to Important Development—Boy Falls from Street Car to His Death—Forest Fire Out.

PARADISE, July 20.—Because he had served for two years as chairman of the Brotherhood of Locomotive Engineers, F. J. Anderson, a typical city boss and supply engineer in the city fire department, believed that he was the only man in the city who could lead the fire company to new up a petition asking for the transfer to another department of Engineer P. C. Huddleston, whom he hoped to succeed. This was the con-

dition of the Times, No. 23 S. Raymond Ave., PARADISE, July 21.—Because he had served for two years as chairman of the Brotherhood of Locomotive Engineers, F. J. ## BEST SO FAR FOR SEASON.

Huntington Park City Clerk Kills Eight-Pronged Deer in Antelope Valley.

HUNTINGTON PARK, July 20.—Proudly displaying the best kill of the deer season, City Clerk Allen returned from Antelope Valley today, bringing an eight-pointed buck. It weighed 150 pounds. Allen and a party from here went to the valley late last week.

It is probable that Dr. Scherer will not take charge of Throop Institute until after the Christmas holidays and that acting President Chamberlain will return from Europe to start school in the fall. Prof. Chamberlain may sever his connection with the school after the new president takes charge, as he expected to leave at the close of this year and give his entire time to writing along educational lines. He is now in Europe preparing a new work on educational textbooks.

FALLS TO HIS DEATH. In a fit, which was caused by injuries received in falling from a tree four years ago, Grant Devereaux, fell from a Wentworth car yesterday morning and broke his neck and fractured his skull, dying instantly. The accident occurred at the corner of Main and Colorado streets at about 6:30 o'clock.

The young man was 14 years of age and a student in Pasadena High School. He is the son of H. A. Devereaux and lived on the Phillips ranch near Oak Knoll. He has five sisters, two of whom are now on their way by wagon, to Yosemite and cannot be located. The inquest will be held on Wednesday, the hour to be set later.

RECOVERED SEVERE CUT. James Devereaux, a negro boy aged 12 years, last night received a terrible cut in a fall from a car which he was unloading on South Fair Oaks avenue. In some way the youth slipped and as he fell a sharp iron pin protruded from the side of the car tore a gash in his leg about eight inches long and very deep. At the Emergency Hospital Police Surgeon D. B. McCoy looked at the stitches in the wound and the boy was removed to his home at No. 223 South Delmar street.

DEATH OF MANUFACTURER. Carl F. Lunkenheimer, head of the great brass manufacturing syndicate, died suddenly at his Oak Knoll residence Sunday night. He had been in ill health for several years and came to this city for his health three years ago. There was no intimation that the end was so near and friends in this city were greatly shocked at the news of his death.

INQUEST HELD. Coroner Hartwell and a jury of six men held an inquest yesterday morning over the remains of Mrs. Edith Murray, who killed herself here last week. Evidence was heard from the police who investigated the case, Miss Police, the nurse, and W. P. Murray, father of the deceased, who came was brought out to show that it was other than suicide. The verdict is: "We, the Coroner's Jury, and that the deceased, Edith Murray, came to her death from a gunshot wound in the head, self-administered, with suicidal intent."

REMAINS SHIPPED EAST. The remains were shipped East on the Limited at 10:30 o'clock, and funeral services will be held in Cleveland on Friday.

FIRE IN WEST FORK. Late last night, the big fire, which raged all yesterday afternoon in the West Fork of the San Gabriel River, was reported under control. Several hundred acres were burned over before the rangers and volunteers from the mountain camps could get in their work.

PICTURES FRAMED AT WADSWORTH. Pictures for wall paper and paint. The Virginia, Long Beach, equaled by none. Moderate rates for the summer.

HAS NO USE FOR AUTO. Pomona Pastor Who Won Machine in Raffle Gets Cash Instead—Salvation Army Change.

POMONA, July 20.—Rev. Thomas S. Wolcott, formerly of Chicago, who won a new car in a raffle, has decided to sell the car and use the money for the Salvation Army.

NEW HEAD FOR THROOP. President James A. B. Scherer of Newberry College, Newberry, S. C., is no choice of the trustees of Throop Institute for president of the school, and his appointment will, in all probability, be sanctioned at the next meeting of the board.

YESTERDAY Dr. Scherer resigned as president of Newberry College, with the expectation of coming to Pasadena soon after Throop opens in the fall. He will fill the place of Walter S. Edwards, who has been president of the board of trustees of Throop.

Dr. Scherer is known as a clergyman, author and educator. He was born in Salisbury, England, and received his early education in the Presbyterian school in his home city. Later he attended Princeton College and graduated with high honors, taking the A. B. degree. In 1896 he was given his M. A. in 1900 his Ph.D., and in 1907 a received his L.L.D. degree from Newberry College.

While in Japan he was engaged in educational work and was named as a member of the United States broken in 1911 and became pastor of the Evan-

## ROLLING STONE GATHERS WOMAN.

HIT BY HUGE BOULDER; SAVED BY QUICK HUSBAND.

Long Beach Visitor to Carter's Camp Seriously Injured and Has Narrow Escape from Death—Wife Refuses to Take Back Jealous Actor.

LONG BEACH, July 20.—Mrs. Elmer E. Finney of this city was severely injured and had a narrow escape from death near Carter's camp yesterday. She was hit by a huge boulder which came down the mountain, Mrs. Finney rolled down the trail and was caught by her husband.

Yesterday, Mr. and Mrs. Finney, appearing in a party of young people, Miss Vera Davis, Margaret Walker, Hazel Sanders, Ruth Finney, Edith Knott, Guy Barstow, Carl Brun and Bedford Finney, started from Carter's camp for a trip up the cañon. Reaching the top of the cañon, the party started to climb the rocky trail. Mrs. Finney was the last to start, and she was hit by a huge boulder which came down the mountain.

The young people made the ascent safely, and then Mr. and Mrs. Finney started. Half way up, Mrs. Finney was struck by a 100-pound boulder which came down the trail. The rock struck her on the knee and foot, laying the skin of both open to the bone, then went crashing into the cañon below, followed by an avalanche of smaller rocks which included Mrs. Finney's hat and a pair of shoes. She lost her balance and rolled down, but Mr. Finney with quick wit, seized hold of a tree root and bracing himself, caught his wife as she tumbled and dragged her into safety. Temporary bandages were applied to the injuries and, with the entire party assisting, Mrs. Finney was taken up the hogback to Hermit camp, where a burro was secured and she was brought back to Carter's for medical attention. No bones were broken, but it will be several days before she can walk or be able to return home. The young people have not yet returned, but Mrs. Finney is expected to be home in a few days.

ACTOR REPEATED. G. F. Alford, the jealous young husband who attempted a gun play Saturday night, because he believed that his wife, known professionally as May Brooks, was flirting with a man, was arrested yesterday and charged with the murder of his wife. He was released on bail and is expected to appear in court again today.

THREE DEER SHOT. Hunters Near Glendora Bring Trio of Bucks—Child Wounded by Playmate.

GLENDORA, July 20.—Messrs. Earl Midgley and Everett La Feta brought down a splendid three-pointed buck yesterday morning. In Esley's Cañon, Messrs. J. J. Wagner and Morris Morris also brought in a good specimen from the same cañon, east of Glendora. J. M. Baker and O. P. Yost have brought down the San Gabriel Cañon, an unusually large buck.

BOY ACCIDENTALLY SHOT. Freddie, the three-year-old son of Luther Kuhn, was shot by an eight-year-old playmate on Friday afternoon. The Wright boy was standing at the window in his home, and had his rifle aimed at a bird in the tree. The bullet struck Freddie in the chest, just below the right arm.

REALTY SALES. P. Haas has sold his eleven-acre ranch, set to nursery stock, just south of town, to W. G. Hall. Jacob Eber has sold his house and lot on South Pennsylvania avenue to Mr. Parkhurst of Elbert, Colo.

PROHIBITION CHAUTAUQUA will be held here this week, with a stereopticon lecture by Rev. Greene.

FRANCHISE GRANTED. Santa Monica Council Approves Wave Motor Proposal—Anglican Women Will Meet.

SANTA MONICA, July 20.—The City Council Wharf Committee tonight recommended that a franchise be granted to George M. Todd for his wave motor proposition.

TEMPORARY ALL-DAY quarterly meeting of the Women's Auxiliary of the Episcopal Church for the diocese of Los Angeles will be held at St. Augustine's Church. Delegates representing the diocese of Southern California will be in attendance at the sessions. Addresses will be delivered by Rev. William Mac Cormack, Rev. E. H. Hox and George W. Hox of Honolulu. Mrs. Josiah E. Cowie, first vice-president of the Federation of Women's Clubs, will be president of the diocesan branch of the Women's auxiliary.

SAMPLE shoes, top floor, Bryson Bldg.

PAY OFFICIAL VISIT. Officers of Italian Cruiser 'Puglia' Call on Mayor of San Pedro and Are Driven Around City.

SAN PEDRO, July 20.—Commander Lorenzi Cusani Visconti, of the Italian cruiser 'Puglia' made an official call on Mayor Joseph W. Wilson this morning. The commander, Capt. Gabrielli Ratti, chief of engineers, and other officers were driven over the town in company with Mayor and John T. Coffey, president of the Chamber of Commerce. The visitors were shown the extensive harbor improvement work and other objects of interest. The 'Puglia' will remain in the harbor until the 25th, when it will be welcomed each day. From here the cruiser will proceed to San Francisco.

GLENDALE. GLENDALE, July 20.—At a meeting of the Lincoln-Roosevelt League tonight, R. H. Friedman was named as the candidate for supervisor of the Fifth District.

OCEAN PARK. OCEAN PARK, July 20.—The City Trustees tonight elected Byron Hannah, called a \$40,000 bond election for August 19 and introduced an ordinance repealing the anti-tent law.

THE United States cruiser Des Moines arrived at Colon Sunday from Guantanamo.

## DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year.

In the world's history no medicine has ever met with greater success.

## TOAST KING AND THE PRESIDENT.

ITALIANS BANQUET OFFICERS OF CRUISER PUGLIA.

Her Commander Expects Los Angeles and San Pedro to Become One City With Harbor, Second to None—National Anthem of Three Countries Sung.

King Victor Emmanuel of Italy and President Roosevelt were toasted last night at a banquet given by the Italian colony in honor of the officers of the Italian cruiser 'Puglia', which is now at anchor in San Pedro harbor.

In addition to the Italian officers, Commander Lorenzi Cusani Visconti stated that he will return to Italy and to his King with a pleasant report of his reception in Los Angeles. He said many nice things about this city, and then referred to San Pedro harbor as a naval base.

"There are wonderful advantages at San Pedro," he stated, "and the harbor can be made a splendid naval base. Your breakwater is making it an ideal place for large ships to put in and rest. At Point Fermin there is a splendid chance to build a fort which can command a wide area of the sea, and protect all approaches to the harbor. I expect to return some day and find Los Angeles and San Pedro united with a harbor that will be second to none in the world."

Mayer Harper could not be present last night, but was represented by Tony Schwann, who extended the welcome of the city. Other speakers were: Dr. Bassella, Acting Italian Consul; Giacomo, M. Durand, the French Consul Agent; A. Alberti and R. Migliore.

The entire Italian colony is taking an active part in the entertainment of the guests, and many pleasures are planned for them during their stay in this vicinity.

When the orchestra played the "Star Spangled Banner" last night at the conclusion of the feast, the trumpeters arose and sang it, and then all joined in the Italian national hymn and the "Marseillaise."

In addition to the guests of honor there were seated at the tables: A. Del Orto, A. Vignolo, L. Vignolo, E. Giacchino, F. Corrao, G. Porro, G. Viole, A. Alberti, B. Gandolfi, G. Russo, S. Guasti, J. Lopicchi, J. Zuchelli, R. Lagomarsino, C. Marchetti, A. Dellacasa, B. Bassella, J. Longo, P. Pozzo, P. Beasolo, G. Gal, A. Barletti, C. Cucco, E. Castellano, A. Ferrario, E. Pezari, S. Rodero, P. Ferrario, G. Strillo, P. Bayone, G. Pagliano, L. Quelpole, V. Pagliano, A. Beasolo, L. Torre, A. Garau, A. Canapa, G. Volpi, G. Spini, F. Migliore, M. Durand, E. Scallier, J. Aucilar, P. Giambastiani, W. Cassini, Thomas W. Roulo and L. Tallaferra.

The officers will be the guests today. Meeting of Huntington Park City Trustees Adjourn Amid Cries of "Resign" and "Traitor."

HUNTINGTON PARK, July 20.—Amid cries of "resign" and "traitor" the meeting of the City Trustees tonight broke up in uproar. The subject of trouble was the election of a Trustee to fill the vacancy caused by the resignation of Trustee Steele.

Since he gave up his office a deadlock has prevailed at the board. Tonight Trustee Clarke moved that the question of his successor be referred to the people, who should hold an election. The vote resulted in a tie, thus continuing the deadlock.

Spectators who crowded the room tonight objected to the vote of Trustee W. H. Wright, who opposed an election. It was asserted that he had elected a vote for the motion.

THROWN FROM WAGON. J. A. Madden and William Daniels were thrown from a wagon last night. The former was seriously hurt, but the latter escaped with minor injuries.

Judge John A. Riner of the United States Circuit Court of Wyoming, who was injured in an automobile accident Sunday evening, is resting comfortably today, and no serious results are anticipated.

## RED MOB DELIGHTED WITH COUNCIL'S GIFT.

Wild Orgies After Law's Repeal and Liberation of the Socialist "Martyrs"—Bombast and Booze in Noisy Celebration.

THE City Council yesterday afternoon surrendered to the demands of the socialists and repealed the law which has been the main factor in keeping the dangerous local reds in check—that section of an ordinance forbidding speaking and gatherings on the streets without a permit from the Police Commission. These people can now block the thoroughfares from wall to wall and expound their inflammatory doctrines at will. They celebrated their victory riotously.

A mob of about 200 socialists crowded into the Council chamber. Led by a wild-eyed individual named Holloway, they made a demonstration which would have been ludicrous if it had not ended in a tragedy of the law—at least temporarily.

Councilman Wallace at first made a mild effort to argue with the invaders, but such a babel resulted that he hurriedly subsided, after telling them that he was certainly in favor of free speech.

Councilman Dromgold made a hit with the reds and called forth applause by scoring the Police Commission and expressing his sympathy with the violators of the ordinance who were in jail. Councilman Clappitt also was given an ovation when he hastily placed himself in line with the representative of the First Ward and claimed some of the reds as neighbors.

Even Councilman Pease, who is acting Mayor, said he thought it was a shame to have "those women" in jail, referring to the women who refused to accept a small bail bond to get out, but preferred to remain in the matron's headquarters and play the martyr.

## RED MOB DELIGHTED WITH COUNCIL'S GIFT.

Wild Orgies After Law's Repeal and Liberation of the Socialist "Martyrs"—Bombast and Booze in Noisy Celebration.

THE City Council yesterday afternoon surrendered to the demands of the socialists and repealed the law which has been the main factor in keeping the dangerous local reds in check—that section of an ordinance forbidding speaking and gatherings on the streets without a permit from the Police Commission. These people can now block the thoroughfares from wall to wall and expound their inflammatory doctrines at will. They celebrated their victory riotously.

A mob of about 200 socialists crowded into the Council chamber. Led by a wild-eyed individual named Holloway, they made a demonstration which would have been ludicrous if it had not ended in a tragedy of the law—at least temporarily.

Councilman Wallace at first made a mild effort to argue with the invaders, but such a babel resulted that he hurriedly subsided, after telling them that he was certainly in favor of free speech.

Councilman Dromgold made a hit with the reds and called forth applause by scoring the Police Commission and expressing his sympathy with the violators of the ordinance who were in jail. Councilman Clappitt also was given an ovation when he hastily placed himself in line with the representative of the First Ward and claimed some of the reds as neighbors.

Even Councilman Pease, who is acting Mayor, said he thought it was a shame to have "those women" in jail, referring to the women who refused to accept a small bail bond to get out, but preferred to remain in the matron's headquarters and play the martyr.

After a quantity of verbal fireworks had relieved the leaders of the socialists, Councilman Dromgold made the motion to repeal the section of the ordinance prohibiting the use of the streets for political purposes. The motion was carried by a unanimous vote.

## You Can Own a Half Acre of Ground at

## Ramona Park

In the San Gabriel Valley, seventeen minutes from the heart of the city, for what you would have to pay for a desirable lot in the city, half so large. And at Ramona Park there is plenty of beautiful space, pure air, pure water, and at the same time the advantage of the city are only 17 minutes from your door. Also acres for sale in this sub-division.

## CHAPTER XXV.

## A MURDER PLOT.

"Have you no answer for me, Beppe?" asked Molta, finding the suspense intolerable. "Have I humbled myself in vain? What else can I do? Mother of heaven, what else to appease your anger?"

"I am not silent from anger, Molta."

"Then you will not be reconciled? Ah, you don't, you can't mean that?"

"That will be for you to say when you have heard me."

"As if my heart were not withering for it?" she cried, smiling. She stepped toward me again impulsively, but paused midway as our eyes met. "I can't understand you," she added distractedly, pressing her hands to her bosom. "I have sought to undo the wrong I did you."

"It is I who have wronged you, not you me, and the time has come when you must know the truth."

"The truth?" she murmured. "Do you mean—about Masita?"

"About myself, rather. You remember when I lay ill that I told you I had forgotten everything before the moonlight I was struck. You could not credit it; but it was true. I had forgotten everything—everything. Some time before that I had received a similar injury; and my mind was an absolute blank about everything which had occurred in the interval."

"It is impossible," she cried.

"It is the absolute truth, Molta, on my oath."

She pressed her hands to her head and paced up and down in a frenzy of rage and indignation. But all suddenly she turned and seized my arms and peered into my face. "But you didn't win my love, Beppe. You know that."

"Your very name was unknown to me."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."

"I am ready to tell you the truth."
